PROFESSIONAL SUMMARY

Business Information Technology undergraduate at BINUS University with project and organizational experience across business strategy, business development, market and user research, technical architecture, event operations, and logistics coordination. Has contributed to multidisciplinary digital initiatives, including a managed VPS hosting website and concepts focused on agricultural supply-chain transparency and access to mental-health support. Combines a business-oriented perspective with an interest in technology, supported by communication, problem-solving, public-speaking, and team-coordination skills. Interested in business analytics, data analytics, data science, and artificial intelligence.

EDUCATION

BINUS University Bekasi, Indonesia

B.S. in Business Information Technology (Information Systems) Aug 2024 – Jun 2028

PROJECT EXPERIENCE

HEXFREN

Technical Architecture, Investment & Business Strategy

Website: https://hexfren.com

- Contributes to technical architecture planning for Hexfren, a managed VPS hosting service designed to help developers deploy and manage websites without handling server operations independently.
- Supports business strategy considerations related to service positioning, value proposition, and the direction of the website-based service.
- Participates in investment-related and business considerations to support the development and sustainability of the service.

TANIVERI

Business Development & Business Strategy

Project-based initiative

- Contributes to business development and strategic planning for a digital concept addressing challenges in the agricultural supply chain.
- Supports the definition of the solution's business direction and value proposition, with attention to supply-chain transparency and the interests of farmers and sellers.
- Helps frame the project from a business perspective by connecting the problem being addressed with the intended value of the proposed solution.

PULIHBERSAMA

Market & User Research

Project-based initiative

- Contributes to market and user research for a digital concept intended to improve access to mental-health support.
- Helps examine target-user needs, expectations, and potential barriers to accessing relevant support services.
- Translates research considerations into insights that can inform product direction and the experience being designed.

ORGANIZATIONAL & EVENT EXPERIENCE

B-PRENEUR (BINUS ENTREPRENEUR) – B-ACE

Staff of Event Organizer Mar 2026 – Present

- Contributed to the planning and execution of a student debate competition, including event concept development, activity coordination, and rundown preparation.
- Supported coordination across competition activities and operational requirements to help maintain an organized event flow.
- Worked with the event team to align preparation tasks and on-site execution with the planned program.

B-PRENEUR (BINUS ENTREPRENEUR) – BAZAARIAN EXTERLUDE

Staff of Logistics Mar 2026 – Present

- Prepared and coordinated event equipment and facilities for a student bazaar and live-music activities.
- Supported logistical arrangements for bazaar vendors and concert operations, helping ensure that required resources were available.
- Coordinated operational needs with relevant event stakeholders during preparation and execution.

B-ACE – BINUS UNIVERSITY

Master of Ceremonies Sep 2026 – Nov 2026

- Hosted a student debate competition and guided the program through its scheduled segments.
- Introduced speakers, judges, and participants, delivered event announcements, and communicated key information to attendees.
- Maintained clear audience communication and supported continuity throughout the event.

B-ACE – BINUS UNIVERSITY

Person in Charge of Assessment Sep 2026 – Nov 2026

- Coordinated the debate assessment process and maintained assessment records and scoring sheets.
- Collected and organized judges' scores and supported score recapitulation for the competition.
- Helped maintain an orderly evaluation process through accurate handling of assessment information.

B-PRENEUR (BINUS ENTREPRENEUR)

Activist – Entrepreneurship Division, Research & Development Nov 2025 – Nov 2026

- Participated in the Entrepreneurship Division's Research & Development activities as part of the student organization.
- Supported division-level initiatives and collaborative work related to entrepreneurship activities.
